## Brent Cross Cricklewood Transformation Update

### Construction starts on the first affordable homes in Brent Cross Town

This month we announced that major construction on the first affordable homes at Brent Cross Town, the new neighbourhood at the heart of the Brent Cross Cricklewood programme, has started. This new milestone will be bringing hundreds of new jobs and training opportunities to the area.

120 new homes will be ready to welcome residents from the Whitefield Estate in late 2024. The early delivery of affordable homes is a key part of our commitment to ensure that existing residents benefit first from our regeneration scheme.

In the construction of the buildings up to 350 people will be working onsite at peak time, 20% of which will be recruited locally. Read more [here](#).

The 21-metre-high and 52-metre-long permanent public artwork called *Here we come, here we rise* has been created by renowned London-based artist, Lakwena in collaboration with architects, IF\_DO.

For us, sustainability is at the heart of the Brent Cross Cricklewood regeneration programme. From how we are designing the programme, to how we build it and the materials being used, and how we envision the park town evolving in the future. We want to leave a sustainable legacy.
