McLaughlin & Harvey

# Geron Way Waste Transfer Station

October 2026

Dear Neighbours,

Welcome to your latest update from the McLaughlin & Harvey team, working on behalf of Barnet Council on the Geron Way Waste Transfer Station.

## Site operating hours

**Permitted work hours will be:**

Monday to Friday between 8am and 6pm

Saturdays between 8am and 1pm

## Progress to date

Works are progressing well on site. We recently had our Considerate Constructors Scheme audit and received a rating of 'excellent' from the monitor. The audit evaluates us based on a number of criteria across the areas of community, environment and workforce.

Since our last update:

- The outside of the building has been fully clad
- Inside the western tipping hall, the weighbridges have been installed
- Tarmac works have started around the building
- Concerte works in the main tipping hall have been completed
- Main roof works have begun and you'll have seen a crane moving trusses into place

Over the coming months:

- Tarmac works will continue to the west, south and east of the project.
- Inside, we'll be installing horizontal wall panels to the tipping halls.

## Community engagement

We will continue to work and engage with the local community for the duration of our work in the area.

**Collaborating with Middlesex University students**

We've been working with students from Middlesex University on a sustainability competition around how we can repurpose a number of wooden pallets that we have onsite. Sustainability is important to us, with particular emphasis on how we reuse materials and the impact this can have on the environment.

The students have been creating proposals with different ideas for the pallets and we'll present the winning ideas soon!

If you're interested in finding out more about apprenticeships and placement opportunities, visit: **mclh.co.uk/careers/start-your-career**

**Our new hoarding**

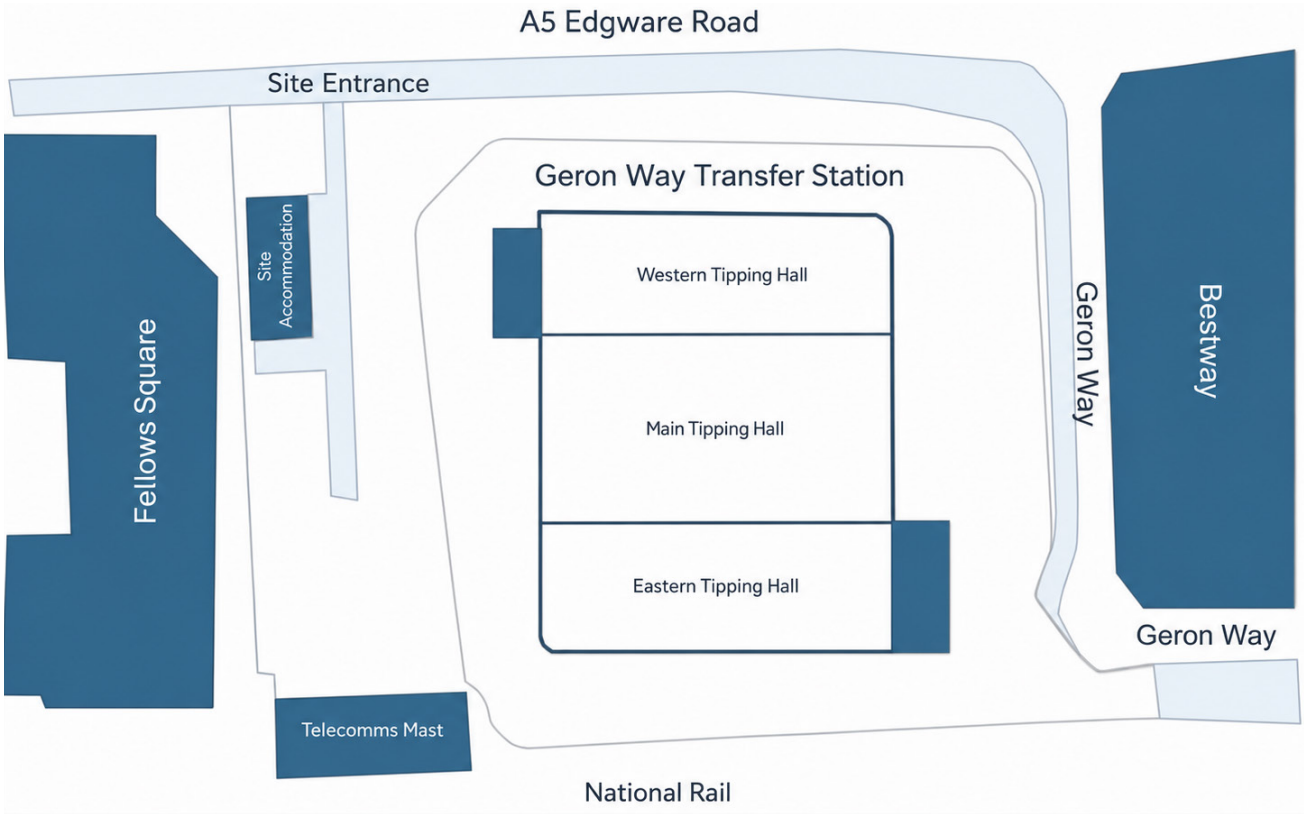

If you've passed our site recently, you may have noticed new hoarding promoting Barnet Council's fostering service. We're pleased to use this space to help raise awareness of the vital role foster carers play in our community.

Barnet Fostering currently provide loving homes for more than 300 children, but more carers are needed to help keep children and young people close to their schools, friends and support networks.

They are looking to recruit at least ten new foster carers each year, who can receive up to £581 per week, alongside training, dedicated support and 24/7 assistance. To find out more, visit: **www.barnet.gov.uk/fostering**

## Site plan

The sketch below provides an insight into how we have set up our site.
